Dimas Ardiminda Edia Putra

Junior Web & Mobile Dev | UI/UX Designer | Cyber Security Enthusiasm | Assis Lecture 22 - 23 at State University of Malang | Photo and Videographer | Content Creator | Student in State University of Malang |
Pasuruan, Jawa Timur, Indonesia

Ringkasan

My name is Dimas Ardiminda Edia Putra, and I am a junior programmer. I'm a student of class 2022. I thrive in challenging environments and excel under pressure. Time management is a skill I possess, allowing me to efficiently organize and prioritize tasks. Holding a Bachelor's degree from the State University of Malang (Universitas Negeri Malang), I am equipped with a solid educational background.

Motivated by the desire to not only secure financial stability but also to enrich my experience, build valuable relationships, and expand my knowledge, I am actively seeking employment opportunities. My interests span across the vast realm of technology, ranging from the development of applications, be it web or Android mobile, to areas like cybersecurity, as well as photography and videography.

In addition to my technical skills, I am adept at public speaking, ensuring effective communication in various professional settings. Furthermore, I possess video editing proficiency, specializing in crafting captivating aftermovies. My multifaceted skill set and passion for technology make me a dynamic candidate ready to contribute effectively to any challenging work environment. I am also a natural photographer whose results can be seen in @penggalan.reformasi_ (Instagram) besides that I am also a videographer and editor
